**Enter your Search Topic Information below:**

I am looking for a sales lead system in which a salesperson selects a
customer lead that he/she would like to pursue.  Before the
salesperson personally contacts the selected customer lead, the sales
lead system sends the customer lead an electronic notification that
the particular salesperson will soon be contacting him/her.  In other
words, the sales lead system provides the customer lead with an
electronic introduction to the salesperson in an attempt to prevent
cold calling.

**Special Instructions and Other Comments:**
(For fastest service, let us know the best times to contact you, in case the searcher needs further clarification on your search.)
